

Applicant elects the compound of Claim 34 as the single required species.

The compound of Claim 34 has the number **172** in the specification, and can be found, *inter alia* on page 109 of the specification. Claims 1, 2, 3, 7 – 11, and 28 – 34 read on the elected species.

The Examiner's attention is drawn to the fact that the subject matter of Claims 35 – 57 is subgeneric to Claim 1, and therefore in the event Claim 1 is found to be allowable then Claims 35 – 57 should also be allowable.

Applicant respectfully requests the Examiner to clearly delineate in the next Office Action the scope of the search conducted by the Examiner, so that applicant has a clear indication regarding the subject matter that is actually restricted out of this application.

The requirements for restriction and election of species are respectfully traversed on the basis that in the applicant's opinion a search directed to the entire subject matter of the claims would not be unduly burdensome.

Respectfully submitted,

A handwritten signature in cursive script, reading "Gabor L. Szekeres", is written over a horizontal line.
